

leisure retail

- Architecture
- Interior Design
- Branding

HPW was established in 1986 with the aim of taking a sustainable approach to architecture and design. We create inspiring environments that encourage customers to linger and spend more money.

HPW has an excellent track record in both new build and refurbishment projects. We are commercially driven in order to help realise our customers' financial objectives.

We take a whole life approach to any project based on the experience, expertise and creativity of our design team.

- €50m leisure, tourism and retail destination
- Planning secured adjacent to SSSI and RAMSAR designated wetland
- 25 acre development and part of a 244 acre lake and woodland site

- Groundbreaking development in destination retail
- Retail Week Awards - Store Design of the Year
- Retail Interiors Awards - Retail Destination of the Year

A nighttime photograph of a modern retail center courtyard. The scene is illuminated by warm interior lights from the buildings and strings of white lights wrapped around several trees. The architecture features a prominent facade of horizontal wooden slats. The courtyard is paved with light-colored tiles and has a central green lawn area. In the background, a multi-story building with a grid of windows is visible under the dark sky.

Bicester Avenue - Award winning Retail Destination

- The culmination of a 7 year masterplan
- Completion in a little over 6 months
- A 20,000 sq.ft Gateway Building at the home of internationally renowned Peppa Pig World

Paultons Park Gateway Building

- Project Management
- Environmental Consultancy
- Landscaping and Urban Design
- Building Regulations Applications
- Post Occupancy Evaluation
- Interior Design
- Branding

At HPW we listen to our clients in order to fully understand their needs. Our design team then produces inspirational designs aimed at maximising impact whilst minimising our clients' costs.

We aim to be involved, and often take the lead, throughout the duration of a project. This means input from the inception and feasibility studies right the way through to welcoming the first customers through the doors on completion.

We are able to offer a full set of services due to our excellent relationship with a team of consultants and contractors.

If you would like any further information, please contact us.
